We welcome EPKs (electronic press kits), production stills and other types of promotional materials and encourage you to include them with your entry.

CONTEST GUIDELINES

Films **MUST** be submitted either digitally online or physically by mailing in a data disc/SD card/USB Drive or video DVD in NTSC format. Other formats such as VHS, Hi8, etc. will not be accepted.

Data file should be named after the title of the film and video DVDs should be clearly labeled with your name, contact info, film run time, and entry category. Under no circumstances will any of the materials you send in be returned after the festival.

Our policy is to only accept films completed two years prior to the festival date. However, if there are extenuating circumstances we may consider accepting older projects, just ask.
